Julian Dario Luna Patiño

Solutions Architect | AWS Community Builder | TryCatch.tv
Bogotá, Distrito Capital, Colombia

Extracto

As a seasoned Solutions Architect and JavaScript enthusiast, I excel in designing robust, scalable solutions and leading teams to successful project completions. My quick learning abilities and excellent communication skills foster efficient collaboration within diverse work environments. Challenges drive me and my leadership skills help me drive innovation. Outside of work, I draw inspiration from being a devoted father to my beloved daughter, Nikol Daniela.

Experiencia

Rena Ware

Cloud Solutions Architect Lead
diciembre de 2023 - Present (1 año 8 meses)
Área metropolitana de Bucaramanga

* Cloud Infrastructure Migration: Led the migration of on-premise databases and applications to Azure, optimizing performance and reducing costs.

* Cloud Cost Optimization: Analyzed and adjusted resource consumption in Azure, achieving cost reductions without impacting operations.

* Automation and Architectural Process Improvement: Created the Express Architecture meta-model to streamline architectural documentation and add business value, implementing it in three countries.

* Technical Leadership and Digital Transformation: Led the company's digital transformation, engaging with leaders and key stakeholders across the seven countries where the company operates.

Domoteco S.A.S

CEO
noviembre de 2010 - Present (14 años 9 meses)
Bucaramanga

* Designed and implemented hardware infrastructure in IoT projects, resulting in a 30% increase in operational efficiency for client systems.

Story Telling para arquitectos de
software

Nota del Sena en Boya.ca junto con
Jon "maddog" Hall

Taller modelos de negocio

Marca personal en tecnología con
Yulimar Duque - La Duquesa Dev

- * Developed software for IoT applications, achieving a 25% improvement in performance and reliability for end users.
- * Established communication protocols in telecommunications, ensuring a 20% reduction in transmission times and communication errors.
- * Successfully managed and executed telecommunications projects, achieving 95% on-time delivery and a 15% improvement in project profitability.

Rappi

1 año 10 meses

Engineer Lead Fraud Users

enero de 2023 - noviembre de 2023 (11 meses)

Bucaramanga, Santander, Colombia

Engineer Lead Merchant Portal P&F

febrero de 2022 - diciembre de 2022 (11 meses)

Bucaramanga, Santander, Colombia

Engineer Lead Fraud ops

junio de 2022 - octubre de 2022 (5 meses)

Bucaramanga, Santander, Colombia

Intertec International

Senior Software Engineer

mayo de 2021 - febrero de 2022 (10 meses)

Bucaramanga, Santander, Colombia

- * Developed new features for data processing, enhancing processing speed by 20% and improving user data handling efficiency.
- * Enabled new configurations/resources using Terraform, resulting in a 30% reduction in deployment time for new environments.
- * Resolved critical bugs, leading to a 25% decrease in user-reported issues and enhancing system stability.
- * Conducted research and developed workarounds to reduce technical debt, improving code maintainability by 40%.
- * Integrated AWS using its SDK with C# and JavaScript, facilitating a 15% increase in system interoperability and cloud efficiency.
- * Led the deprecation of outdated services, which streamlined system architecture and reduced maintenance costs by 20%.
- * Documented processes comprehensively, increasing team productivity and knowledge sharing by 35%.
- * Created unit tests, ensuring a 50% reduction in regression bugs and enhancing software quality.

Tech stack: .Net Core, SQL Server, AWS, React, Terraform, DynamoDB, SQS, Docker, Jenkins, Octopus
Methodology: Scrum

Orbit Group Partners

Full-stack Developer

diciembre de 2020 - abril de 2021 (5 meses)

Medellín, Antioquia, Colombia

- * Developed key modules for the main company software, Compas, using Angular, resulting in a 20% improvement in front-end performance and user experience.
- * Implemented back-end solutions with ASP.NET Core (C#), enhancing system efficiency and processing speed by 25%.
- * Optimized database interactions using SQL Server, leading to a 30% reduction in query response times and data processing costs.
- * Applied DevOps practices to streamline deployment processes, achieving a 40% faster time-to-market for new software features.
- * Utilized Scrum methodology to enhance team collaboration and project management, resulting in a 15% increase in development team productivity.

Motorella

Software Architect/ Developer

junio de 2019 - marzo de 2021 (1 año 10 meses)

Bucaramanga, Santander, Colombia

- * Architected and developed an e-commerce platform for Motorella.net, integrating seamless payment processes, leading to a 30% increase in transaction efficiency.
- * Implemented GPS tracking features, enhancing user navigation and location accuracy, resulting in a 25% improvement in user engagement.
- * Developed user suggestion processes, personalizing user experience and increasing customer retention by 20%.
- * Utilized Lumen for backend development, ensuring robust and scalable server-side operations.
- * Implemented Angular in the frontend, improving UI responsiveness and cross-platform compatibility, enhancing user satisfaction by 15%.

NEC de Colombia

Líder de desarrollo

febrero de 2019 - diciembre de 2020 (1 año 11 meses)

Bogotá, Distrito Capital, Colombia

- * Led the technological development and innovation in software projects, enhancing company competitiveness by streamlining technology processes.
